

Sunsure Energy Signs 13.5 MWp Solar PPA with Kirloskar Brothers Limited

Pune, India – September 19, 2024 – Sunsure Energy, the preferred renewable energy solutions provider for India's leading businesses transitioning to green power, is pleased to announce the signing of a 13.5 MWp solar Open Access Power Purchase Agreement (PPA) with Kirloskar Brothers Limited (KBL), one of the global leaders in fluid management solutions. Through this agreement, Sunsure Energy will supply nearly 2 crore units of green power annually to KBL's manufacturing facilities in Kirloskarvadi (Dist - Sangli) and Kohlapur, enabling the company to achieve significant progress in its sustainability initiatives.

The solar power supplied under the agreement will help KBL meet around **75% of its energy requirements** for both facilities from clean, renewable sources. This transition will also allow KBL to offset **14,200 metric tonnes of CO₂e** emissions annually, reinforcing their strong commitment to reducing environmental impact.

KBL has long been a champion of sustainability, integrating green practices into its operations. The company's corporate office in Pune is a LEED (Leadership in Energy and Environmental Design) certified Platinum rated green building whereas four of its manufacturing plants are **GreenCo** certified by CII. It has also received the CII **GreenPro Ecolabel** certification for its **pumps** (DBxe & LLC™ Horizontal Split Case Pump Series) and **castings** (Cast Iron & Alloy Cast Steel Foundry) as a result of their low environmental impact and adherence to global sustainability standards. This PPA agreement will further advance their sustainability initiatives.

Kartikeya Narain Sharma, Co-Founder & CSO of Sunsure Energy, commented, "We are excited to partner with Kirloskar Brothers Limited, a company that has demonstrated unwavering dedication to engineering excellence and sustainability. This partnership strengthens Sunsure's mission of accelerating the adoption of green energy solutions in India's industrial sector."

Manish Patel, Head of Corporate Sustainability & Excellence at KBL added, "At Kirloskar Brothers Limited, sustainability is at the core of our business. By embracing solar power through our partnership with Sunsure Energy, we are taking a bold step toward reducing our carbon footprint and leading the way in renewable energy adoption within the manufacturing industry."

In Maharashtra, Sunsure will develop solar and wind energy parks of a cumulative capacity of 500 MW, over the next 2 years. In addition to KBL, Sunsure has signed PPAs to supply power with leading businesses like Lupin, KSB Pumps, Dabur, Sandoz, Emcure, Inox Air

Enriching Lives

KIRLOS KAR BROTHERS LIMITED

Products and more. Across India, Sunsure Energy has provided renewable energy solutions to 70+ Indian industrial companies across 16 states.

About Sunsure Energy:

Founded in 2014, Sunsure Energy is the preferred renewable energy solutions provider for India's leading businesses transitioning to green power. As a leading Independent Power Producer (IPP), Sunsure enables businesses across India to embrace clean energy with ease and confidence through long-term Power Purchase Agreements (PPAs) that offset up to 70% of power use to renewable energy through a mix of solar, wind and battery storage technologies. Sunsure is backed by Partners Group AG with an equity commitment of \$400 million towards its vision of building the largest industrial decarbonization company in India and SE Asia. With 500 MW of assets under operation, 2.5 GW of renewable energy capacity under construction, and a target of 5 GW by the end of 2028, Sunsure Energy is committed to powering India's energy independence and transforming every Indian business with green energy. <https://sunsure-energy.com/>

About Kirloskar Brothers Limited (KBL):

Kirloskar Brothers Limited (KBL) is one of the leading global providers of fluid management solutions. Established in 1888, KBL offers a comprehensive range of pumps, valves and hydro-turbines to critical sectors like water management, irrigation and power generation. From large-scale infrastructure projects to domestic water supply, KBL's expertise and innovative solutions have made them a trusted partner for industries worldwide. <https://www.kirloskarpumps.com/>
