

Sunsure Energy Takes the Lead in Uttar Pradesh's Green Energy Revolution with its Sixth Open Access Solar Power Plant

The 49 MWp solar plant is located in Augasi, Banda

Lucknow, October 24, 2024: Sunsure Energy, the preferred renewable energy solution provider for India's leading businesses transitioning to green power has commissioned its sixth open access solar plant in Uttar Pradesh. The newly commissioned solar plant is situated in Augasi, Banda and has a capacity of 49 MWp. Sunsure has so far commissioned more than 100 MWp of open access solar capacity in the state within a year. The project also takes the company's total commissioned solar open access projects in the state to 160 MWp. Adding to this, the company has solar plants of 270 MWp under various stages of construction and development in the state. This achievement further solidifies Sunsure Energy's position as a leading solar energy provider in Uttar Pradesh, with existing open access solar plants already operating in Agra, Banda, Mahoba, Jhansi and Unnao.

The 49 MWp facility is expected to offset an impressive 1.3 million tonnes of CO₂e over its lifetime, significantly contributing to the state's clean energy transition. The company currently supplies green power to over 20 customers in the state, including Wonder Cement, Inox Air Products, Kajaria, Dabur, Gallantt Ispat, Orient Bell and others.

Shashank Sharma, Founder, Chairman and CEO, Sunsure Energy said, "Uttar Pradesh is a renewable energy success story, and Sunsure Energy is proud to be a driving force in this energy transition journey. With its diverse industrial base – from data centers and electronics to FMCG giants and cement producers – the state already boasts a 600 MW renewable energy market, and we are proud to command a 25% share of that market. We've seen extraordinary demand here, partnering with industry leaders to deliver crucial projects that are powering their transition to a greener future."

"Sunsure Energy is deeply committed to supporting Uttar Pradesh's ambitious green initiatives. Our customized suite of green power solutions empowers companies across sectors to meet their renewable energy goals. We're actively scaling up our portfolio of solar open-access projects in the state to ensure that every C&I player has access to reliable, sustainable green power", Sharma added.

Sunsure Energy is currently powering the sustainability journey of over 70 industrial giants across 16 states – including multinationals like Sandoz, Lupin, KSB Pumps, Inox Air Products, Emcure, Dabur, and Olon API. With a growing portfolio of solar, wind, and energy storage projects nationwide, Sunsure Energy is committed to making clean energy accessible and affordable for businesses shaping a greener future for India.

About Sunsure Energy: Founded in 2014, Sunsure Energy is the preferred renewable energy solutions provider for India's leading businesses transitioning to green power. As a leading Independent Power Producer (IPP), Sunsure enables businesses across India to embrace clean energy with ease and confidence through long-term Power Purchase Agreements (PPAs) that offset up to 70% of power use to renewable energy through a mix of solar, wind, and battery storage technologies. Sunsure is backed by Partners Group AG with an equity commitment of \$400 million towards its vision of building the largest industrial decarbonization company in India and SE Asia. With 500 MW of assets under operation, 2.5 GW of renewable energy capacity under construction, and a target of 5 GW by the end of 2028, Sunsure Energy is committed to powering India's energy independence and transforming every Indian business with green energy. www.sunsure-energy.com
